### Hot Air Expeditions

Hot air balloon rides have been a favorite of tourists and native Arizonans for many years.

**IN THE BEGINNING...**The balloon adventure begins upon arrival at the Sonoran desert launch site. A "pre-flight briefing" is given to learn more about the hot air balloon and how it flies, plus other facts needed to make an Arizona flight as enjoyable as possible.

**THE INFLATION...**All flights begin with the inflation of the balloon by motorized fans. Once the envelope is filled with air, the propane burners are ignited to heat the air inside. In about thirty minutes the balloon is ready for flight and once the balloon is inflated, guests join the pilot in the beautiful hand-created wicker basket. The luxurious, over-sized basket has plenty of room to allow everyone to enjoy the ride to the fullest.

**UP, UP AND AWAY...**Gently leaving the ground, all are amazed at how light the balloon feels. During the flight all have an unobstructed 360-degree view. Hot Air Expeditions generally fly close to the ground, usually under 400 feet. At this altitude it is easier to enjoy the sights and sounds of desert life. Based in Phoenix and Scottsdale.
